'Title 6' Housing for Texarkana

Texarkana (both the Texas and Arkansas sides) was this week placed under Title Six of the Federal Housing program. As the border town previously had been awarded 100 per cent U. S. Housing Authority construction it now has both of the housing relief programs made available by the national government to Defense Areas. Hope, a Defense Area in its own right, thus far has gotten neither program.

Southwestern to Furnish Proving Ground

Company Asks Permission to Build 23-Mile Electric Line

LITTLE ROCK — (AP)— With a contract to supply electric power for the Southwestern Proving Grounds, airplane depot near Hope, the Southwestern Gas and Electric company Friday applied to the state department of public utilities for authority to construct 23 miles of transmission lines.

F. M. Wilkes, general manager of the company, said a 33,000-volt line would connect the proving grounds with the company's system at Okay, T. mpeast county.

The contract will require between 1,000 and 1,500 kilowatts capacity, Wilkes said, adding that more power could be furnished if necessary.

That amount of power, he said, is about what would ordinarily be necessary to supply two cities of size of Stuttgart or Searcy.

The power will be available immediately upon completion of the line, which require about 30 days to build, and the utilities commission will consider application next week.

Training School Opening Monday

Bad Weather Causes Slight Delay in Opening

Due to rainy, bad weather, the opening of the salesmanship school, sponsored by the Chamber of Commerce and conducted by Miss Evelyn Schaffhauser, instructor of Salesmanship in Distributive Education, from the State Department of Education, has been postponed until Monday night, November 3.

All who wish to take this work are urged to attend the first meeting, as classification of students will take place at that time and plans and programs of the different courses will be arranged.

A very interesting picture, "The Land of the Free," furnished by the local Coca Cola Bottling Company, will also be shown at the opening meeting Monday night.

Everyone who is now a salesman or expects to be a salesman, will be greatly benefited by these meetings, and at the conclusion of the course a certificate will be awarded by the State Department of Education to all who complete the course.

\$205,000 Paid to SPG Workers

Largest Single Payroll Goes to 5,800 Employees

Friday's payroll at the Southwestern Proving Ground was approximately \$205,000 and paid to more than 5,800 employees, which is a new high for this job both as to number of persons employed and amount of disbursement according to a statement from the project.

So large is the area in which construction is underway that it is necessary to establish paying offices in the field as well as at the central time lines and the services of many paying clerks are necessary to issue the payroll.

Actual paying began with issue of checks to administrative personnel and early on throughout the day and until 2:00 a. m. Saturday morning when the last shift comes off duty.

German Drive Centers About Crimea, Moscow

Workers Join Red Army as Nazis Aim at Port of Sevastopol

By the Associated Press
Soviet workers fought alongside Red army troops Friday in a bloody series of battles around Tula, 100 miles south of Moscow as the Germans stepped up the fury of the 30-day drive on the Soviet capital from two directions.

Tass, official Soviet news agency, said that Nazi forces were driving hard on Moscow's northwest flank, apparently in the Kalinin sector, 95 miles northwest of the capital—but that heavy artillery fire and repeated counter attacks checked the advance.

Position Improved
Tass also reported that Soviet troops were not only holding defense positions but were improving them.

On the southern front, Hitler's high command asserted that the Russians were in full flight under assault of German and Rumanian troops smashing into the Crimean Peninsula.

Apparently heading for the Russian Black sea base of Sevastopol, 100 miles across the Crimea, German flame throwers, tanks, troops supported by heavy aerial attacks, were reported to have broken through the Crimea gateway two days ago. Soviet dispatches gave no hint of precipitate retreat, declaring that Red troops and marines were counter attacking fiercely, aided by planes from the Red army fleet.

Mustering All Men
Dispatches from Kishinev, auxiliary Soviet capital, said all Crimean men able to carry a gun were being mustered to stem the onslaught.

On the Moscow front the Germans were reported to be hammering violently at Soviet General Zhukov's Red army defenders from the Aul sector in the south and from Volokolamsk region, 65 miles northwest of the capital.

"Sanguinary battles are being waged for every town and village at the approaches to Tula," a Soviet bulletin said and "all attacks by the German Fascist troops were beaten off with heavy losses to the enemy."

Advices captured London said the Germans reaching Volokolamsk after bitter fighting in which the town changed hands three times in three days.

Safety Record Declines Here

More Than 1,100 Man Hours Lost in September

More than 1,100 man hours were lost in the six plants represented by the Hope Industrial Safety Council during the month of September. This is the largest loss in several months. This is probably due to a let down in the Safety Program during the past four months.

Plans are being made to revive the monthly council meetings and safety meetings in each plant. Also, a general Industrial Safety Meeting is planned for November 20, when buttons will be distributed to the men who have had no accident during the past year, and certificates given the plants showing how many months they have operated without an accident during the past twelve months.

W. J. McCain, State Commissioner of Labor, and J. S. Henderson, State Safety Engineer, have been invited to attend this meeting and arrangements have been made to show moving pictures (furnished by the National Safety Council), emphasizing the importance of better safety practices in industrial plants.

September reports are as follows:
Hope Heading company, 8,898 hours worker, no accidents, no hours lost.
Hope Basket company, 45,290 hours worker, 5 accident, 380 hours lost.

Gunter Lumber company, 20,238 hours worker, 3 accidents, 425 hours lost.
Union Compress & Warehouse company, 6,372 hours worker, no accidents, no hours lost.

Temple Cotton Oil Company, 5,667 hours worker, no accident, no hours lost.
There was a total of 124,605 hours worker, with only 13 accidents, and 1,167 hours lost.

The New York Philharmonic-Symphony Orchestra is the oldest orchestra in the United States and the third oldest in the world.

Troops Take Over Bendix Plane Works

Action Follows Roosevelt's Order Issued Thursday Night

BENDIX — (AP)— The army seized the plant of the Air Associates, Inc., Friday and won cheers from both factions in a bitter labor fight with the announcement that it would require men without regard for the past.

President Roosevelt Thursday night issued an executive order directing that the army take over and operate the plant, saying the dispute threatened to halt defense production.

Secretary of War Stimson then set troops in motion.

More than 2,000 soldiers formed a human ring around the plant. Despite the show of force only the machine guns were loaded. Officers had issued specific orders that no bullets were to be in other guns.

At nearby Hasbrouck railway station CIO strikers formed a line on one side of the driveway and non-strikers massed on the other. Lines of troops with fixed bayonets eyed both groups.

Into this tense scene rode Col. Roy M. Jones, eastern district army supervisor, who took charge of the plant.

French Ignore Demonstration

Five-Minutes Silence Requested by DeGaulle Ignored

VICHY — (AP)— The population of Vichy, capital of the Petain regime, Friday virtually ignored a Free French request for a 5-minute standstill demonstration in protest against German execution of hostages.

The call for the demonstration by Charles DeGaulle in London last Saturday for 5 minutes Friday at 10 a. m. CST. Frenchmen were asked to stand at their occupations in silent protest against the German measures.

Reports from the rest of occupied France were not available but if they show condition like Vichy, the demonstration will have been almost a complete failure.

At Vichy the Associated Press correspondent saw only 6 persons observing the DeGaulle order, 5 men and one woman.

Proclamation for Book Week

County Judge Proclaims Nov. 2-8 as Book Week

The following proclamation was issued here Friday by Fred A. Luck, Hempstead county judge:

WHEREAS, the week of November 2-8 inclusive is National Book Week, the observance of which is urged throughout the nation, and

WHEREAS, the value of good books and periodicals is never greater in maintaining among the populace a proper spiritual, moral and aesthetic outlook on life than in times of unrest and world wide disturbance, and

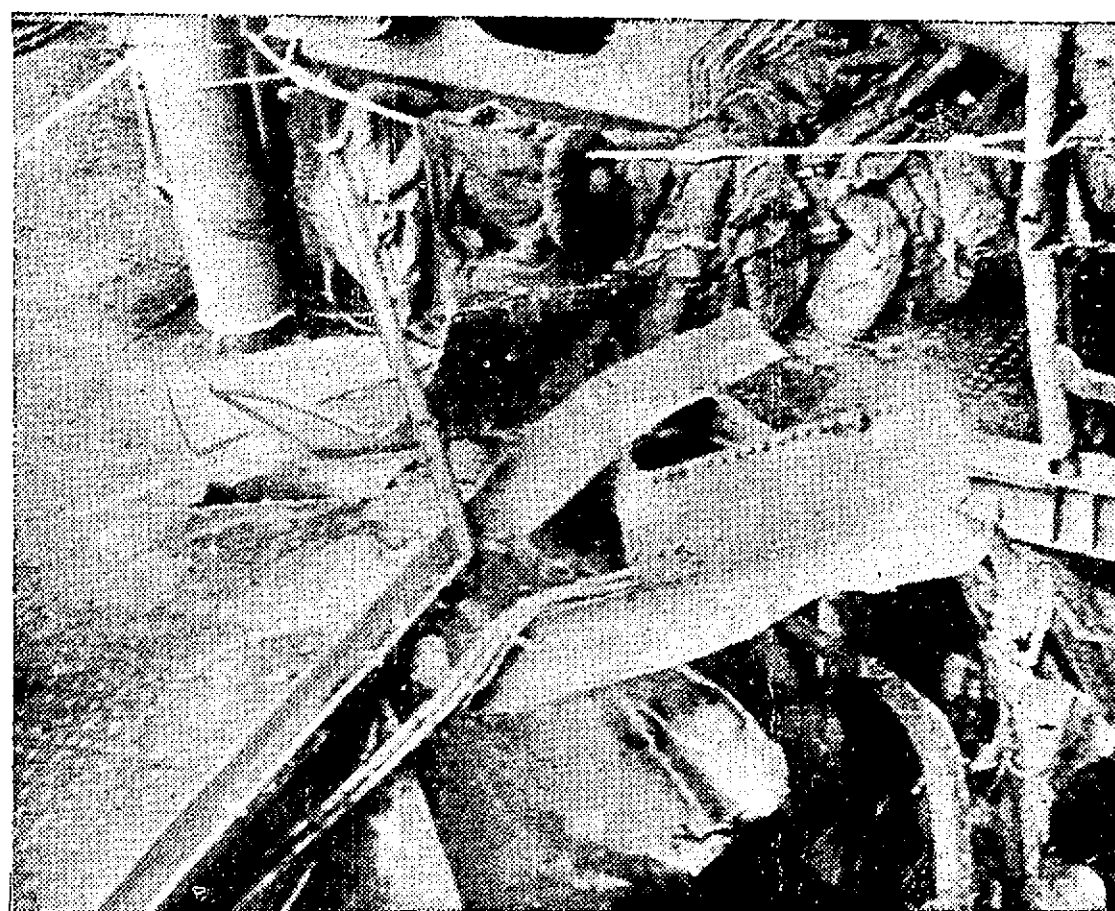

WHEREAS, Hempstead county jointly with the City of Hope has sponsored the operation of the Hope-Hempstead County Library with its headquarters in Hope and branches in Springfield, Washington, Blovin, Collins and Fulton, and sub-stations in a number of the schools in the county resulting in a great increase in the amount of reading done by the people of the county during the past two years,

NOW, THEREFORE, I, Fred A. Luck, as County Judge of Hempstead County, Arkansas, officially proclaim the week of November 2-8 inclusive as Book Week and urge all of the citizens of the county who are not familiar with the work of the county library to visit the nearest branch or sub-station and to further urge all who have taken advantage of the services of the county library in the past to increase their patronage of this worthwhile county institution.

WITNESS my hand and seal on this 29 day of October, 1941.
FRED A. LUCK
County Judge

The birth rate for England in 1940 was 14.6 per 1,000, a decline of 2 per cent from 1939.

Arkansas River Rising Fast

Warnings Issued From Fort Smith to Pine Bluff

LITTLE ROCK — (AP)— With a steady rain falling in Arkansas and the situation in Oklahoma still serious the Weather Bureau revised upwards the flood prediction for the Arkansas river indicating peak rises in most places.

The bureau said the river was expected to reach 35 feet—13 feet above flood stage—at Ft. Smith on Sunday. This would be only 18 inches under the 1927 flood crest.

Friday recordings showed the river had reached 28.7 feet at 6 a. m. and was still rising. U. S. engineers already are on 24-hour duty preparing to build emergency levees in Crawford county. Thousands of sand bags are being sent to that area.

Watchers were placed along the river from Ft. Smith to Pine Bluff and residents in the lowlands were warned to move to higher ground. From Ft. Smith also came reports that the water was already spreading over the lowlands.

Engineers said the river had passed the 26-foot level at Little Rock, a mark which has been exceeded only about a dozen times within the past 100 years.

Wreck Victim Dies Here

Negro Succumbs of Injuries Suffered Last Tuesday

Budd Todd, about 65, one of five negroes injured in an automobile accident between Hope and Fulton last Tuesday afternoon, died in the Julia Chester hospital here Thursday night.

Todd suffered a broken leg and internal injuries. Four other negroes were treated at the local hospital but were later released.

An unidentified white man was also injured in the accident but was carried to a hospital in Texarkana for treatment. His injuries were not believed to be very serious.

Death of the negro brought to two the number of highway fatalities in this area during the week, and the fifth in the entire state.

Red Cross Roll Call on Nov. 11

Leaders Named by George Ware, Roll Call Chairman

George Ware, chairman of the 1941 Roll Call of the American Red Cross, has announced that plans are about complete for a systematic campaign for 2,500 memberships this year, which is the quota set for Hempstead county. The Roll Call begins November 11, and will continue till December 1, but Mr. Ware feels sure the quota will be oversubscribed before the closing date.

Mr. Ware has appointed E. E. Austin, county superintendent of Schools, as chairman of all Hempstead county outside the city limits of Hope; and Mr. Austin has asked every rural teacher to serve as chairman in his community. This will provide complete coverage all over the county.

Chairmen for the residential districts are as follows: First ward: Mrs. E. M. McWilliams and Mrs. Robert Wilson; Second ward: Mrs. L. W. Young; Third ward: Mrs. J. G. Martindale; Fourth ward: Mrs. B. O'Dwyer. Chairmen for the business district, Proving Ground, Government and CCC camp have not been chosen, but will be announced tomorrow.

Miss Beryl Henry is county chairman for the Junior Red Cross, which will have its roll call at the same time this year as the senior organization.

All workers will be entertained with a buffet luncheon Tuesday night, November 4, at the Christian church, when supplies will be given out to all chairmen and instructions to make the canvass easier and more effective. Inspirational talks will be made by Mr. Ware, Miss Henry and Mr. Austin.

Murfreesboro at Mena. Horatio at Blevins. Figgott at Marked Tree. Corning at Inboden. Bentonville at Alma.

Clarendon at Augusta. Gordon at Malvern. Fine Bluff at North Little Rock. Catholic High at Conway. Arkansas School for the Deaf at Heber Springs.

Bobcats Leave for Blytheville

Chicks Doped to Take Hope in Conference Game

The Hope Bobcats, coaches and student managers boarded a large bus at 5 o'clock Friday morning for Blytheville where they will engage the powerful Chicks in a conference contest.

The Chicks outweigh the Hope lads five pounds per man and are heavy favorites to cop the game, despite the fact that their scoring ace, Sonny Lloyd, will not see action Friday night. Reports from Blytheville say that Coach Dildy is not taking any chances with Lloyd, saving him for the struggle with Little Rock.

The Bobcats were reported to be in "fair" shape and Hammons announced that Cumbe and end Ray would see plenty of action in the contest.

Although realizing they have little chance to win against a heavier and more experienced team Coach Hammons said, before leaving, that he believed the Bobcats would put up a good scrap.

"We hope to hold the score as low as possible and from the looks of the boys in scrimmage this week we will," the coach asserted.

"Most teams we have played this season have overpowered my boys but none have outfought them," Hammons reported, saying the team was handicapped because of the lack of reserve power.

After Friday night's game the Hope team will play its ancient rival the Prescott Curly Wolves, at Prescott. The Bobcats have only one more home contest, North Little Rock here on November 21.

Salary Hike for City Employees

Police, Street, Fire Departments Receive Increases

The Hope city council in a meeting Tuesday night voted to increase the salaries of employees in three departments of the city by 10 per cent.

Departments receiving increases were the police department, street department, fire department, including volunteer firemen, the janitor of the city hall and the caretaker of the cemetery. Fred Russell, skilled city tractor operator, was given a 25 per cent raise.

The increase goes into effect November 1.

The council also discussed a number of city projects now in process of being submitted to the government for approval. It was decided to defer the \$100,000 sewer project, now being considered, and to devote all efforts on projects calling for the drilling of a new well and the addition of a new boiler at the City Water & Light Plant.

Mayor Albert Graves told the group that he was now investigating the two projects and would report to the council at the next meeting night.

Reuben James Torpedoed Off Iceland Coast

No Information Received Regarding Fate of 120 Officers, Men

WASHINGTON — (AP)— The U. S. Destroyer Reuben James was torpedoed and sunk west of Iceland Thursday night, the first American warship lost since the war in Europe began and President Roosevelt crisply told a press conference that the attack would not change the U. S. policy.

Hours passed with no news of the fate of the men aboard while in London authorized British spokesmen took the view that Germany had declared "indiscriminate submarine war fare against the United States."

Ordinarily the Reuben James carried 6 officers and 114 men. The 21-year-old destroyers was on convoy duty, the Navy department said, and President Roosevelt noted specifically, in his conference, the fact that she was carrying out duties assigned to her.

In Berlin authorized sources said that if the destroyer was participating in conveying it was no wonder that she was torpedoed.

Goes to Bottom
Unlike the Destroyer Kearny which was torpedoed October 17 with the loss of 11 men, the older Reuben James went to the bottom. The Navy said she was conveying in the North Atlantic.

The Reuben James was the third American warship fired on, the second to be hit and the first to be sunk in the increasing tempo of action on the sea the past few weeks.

Congress was stirred by the news, Senator Gillette (D-Iowa) told reporters that "America will protect her seamen no matter what mission they are on."

Senator Capper (R-Kansas) said this "apparently puts us closer to a shooting war," and Senator Guernsey (Rep.-N. D.) said "this clinches the argument for wiping out the neutrality act."

"We can expect such things when ships are in the war zone," Senator Truman commented.

Whether it was a submarine or surface vessel or a torpedoing carrying plane which brought the ship to its doom was not disclosed immediately.

Old Type Ship
The ship was described at the Navy as an old type flush-deck destroyer similar to the type traded to Great Britain.

The Navy described the destroyer as 314 feet long with a beam of 30 feet. Her displacement was 1,190 tons. She was commissioned September 24, 1920, built by the New York shipbuilding company and carried four 4-inch rifles and a battery of anti-aircraft guns.

The first target of a torpedo in the North Atlantic was the destroyer Greer one of the old type ships. Two weeks ago today, October 17, the Destroyer Kearny engaged in a night battle against a German submarine which had attacked a convoy, was hit amidship by a torpedo and 11 American seamen were killed and 10 wounded.

The Reuben James commander, Lt. Commander L. H. Edwards, was described as a native of San Saba, Texas, 35, and the Navy said his permanent home was listed as San Saba.

The fact that scant information first available on the sinking was not amplified indicated that the convoy which the destroyer was escorting was still at sea west of Iceland and with radio silenced in order to avoid giving away ships positions to sea raiders.

Naval officials said they had no information as to when further details might be available. It was recalled that in the case of the Kearny several days elapsed before information came in that the Kearny suffered loss of 11 lives.

In that case the crippled Kearny was trying to reach a friendly port. The same procedure might not apply today since presumably ships from which the information might come in were undamaged and capable of coping with future attacks.

Glad Sub Survived
BERLIN — (AP)— If the U. S. destroyer Reuben James was participating in convoy it was no wonder she was torpedoed, authorized sources said Friday night.

"The convoy is an English affair and whoever participates in it becomes part of an English formation," it was declared.

"I'm certainly glad it was not our U-boat that was sunk and rather that an American destroyer that was torpedoed," sources said.

Social Calendar

Thursday, October 30th
Miss Patricia Duffie, bride-elect of Chester Holloman of El Dorado, will be guest of honor at a tea to be given by Mrs. E. F. McFaddin, 3 to 5 o'clock.

Friday, Oct. 31st
Cotillion Club informal dance at the Country Club for the members and their guests, 8 o'clock.

The Friday Music club chorus will meet at the home of Mrs. Garrett Story, 9:30 o'clock.

Girl Scout Calendar

Friday, October 31st
Miss Brooks will hold conference at the Barlow all day Friday for the benefit of the troop leaders and council members. Those interested will please call Mrs. Bernard O'Dwyer for an appointment.

Luncheon honoring Miss Brooks in the private dining room of the Diamond Cafe, 1 o'clock. All persons desiring reservations will call 848 or 53-J before 9 o'clock Friday morning. All Girl Scout workers are invited to attend.

Monday, November 3rd
The Y. W. A. of the First Baptist church will meet at the church at 6 o'clock.

Saturday, November 1st
Halloween party for the mem-

bers of Troop No. 5, the "Little House", 7:30 o'clock.

Bride-Elect Is Honored at Tea
Thursday by Mrs. McFaddin
Mrs. E. F. McFaddin entertained at a beautifully appointed tea on Thursday afternoon at her home on North Hervey street in compliment to Miss Patricia Duffie, who will wed Chester Holloman of El Dorado in a quiet home wedding Sunday, November 2.

The guests were greeted at the door by Miss Mar Sue McFaddin and invited into the hall by Mrs. O. A. Graves and Mrs. C. D. Lester with Miss Matilda McFaddin assisting. In the receiving line other than the hostess were Miss Patricia Duffie, the honoree, Mrs. J. P. Duffie, the honoree's mother, Mrs. G. Layne Addison of Fort Worth, aunt of Miss Duffie, Mrs. Mittle McCommon, Fort Worth, mother of the hostess, and Mrs. Anna Duffie, grandmother of the honoree.

Mrs. L. G. Martindale directed the guests in the living room which was decorated in fall flowers, where Miss Beryl Henry had charge of the guest book. The reception rooms were decorated with a profusion of autumnal daisy-type chrysanthemums in bronze. A color scheme of pink was used in the dining room, Mrs. Ross Gillespie, Mrs. Frank Ward, and Mrs. John Vesey directed the guests to the tea table covered with a point de Venice cloth and centered with a crystal bowl containing shell pink daisy chrysanthemums. Flanking the central arrangement were lighted pink tapers in silver holders. Assisting in the dining room were Misses Carolyn Trimble, Patsy Ann Campbell, Frances Harrell, Rosalyn Hall, and Mary Ross McFaddin.

A number of friends called during the appointed hours, 3 to 5.

Personal Mention

Mrs. L. E. Talley and children, Dorothy and Buddy, of Beaumont, Texas are expected to arrive Friday night to be the guests of Mrs. Talley's mother, Mrs. Anna Hudson, and other relatives and friends.

Miss Hattie Anne Foild has returned from a visit to Shreveport.

Mrs. J. L. Green, who has been the guest of relatives and friends in Little Rock, returned this week.

Mrs. Lloyd Spencer, Mrs. E. M. McWilliams, and Mrs. Terrell Connolly were visitors in Shreveport Wednesday.

Mr. and Mrs. Frank Nolen are spending the last of the week in Shreveport.

Harold Theard of Ft. Bliss, Texas is visiting his mother, Mrs. W. O. Reece, and Mr. Reece.

How Granting Germans Patents Pays U. S.

WASHINGTON — Recent award of a U. S. patent to a German citizen for a propellerless airplane driven through the skies like a rocket brings to light some interesting background on the international granting of patents on military devices in times like these. First impression might be that the United States government, was going out of its way to be nice to the Germans in granting them patents and in encouraging German inventors to apply for foreign patents in time of war, but the situation doesn't spell out that way at all.

As a matter of fact, it's a distinct advantage to the U. S. to have the Germans registering their patents in this country now, particularly on military gadgets of destruction. The way it works out, it's to the advantage of the United States to receive and publish these patents since this makes the information available to U. S. military services.

All applications for patents are carefully reviewed by patent examiners as to their military value and one special group of examiners works in close co-operation with Army, Navy, and Office of Production Management. All patents found to contain information of military value are then ordered withheld from publication, and the Army and Navy are informed of the patents.

When war on Germany was declared in 1917, the U. S. government seized all patents awarded to German citizens and appropriated everything of military value for the use of the U. S. services. The same thing would probably happen in case the U. S. should declare war in the present emergency.

James Jumps the Gun
What happens in Washington when one of the big shots starts talking without having all his henchmen around to keep him straight on details was demonstrated the other day by Federal Loan Administrator Jesse Jones. Usually when the administrator holds a press conference he is flanked by a row of dignified gentlemen who do the work on the dozen or more government corporations of which Mr. Jones is titular head. They laugh at the boss's jokes and answer questions he can't.

On this particular occasion, how-

ever, when a question came up about new loans to Latin-America, Mr. Jones said one had been granted to Mexico for road improvement when, as a matter of fact, the loan had not yet been agreed to or signed. Negotiators were still at work on it, in secret. Warren Lee Pierson, head of Export-Import bank, wasn't there to correct the announcement, with the result that there was much confusion and covering up to be done in Mexico City, for Washington had agreed for simultaneous announcement should the loan be granted and signed.

Incidentally, in connection with Latin American loans, one of the new good neighborly deals under consideration is a Venezuelan application for finance to help tear down the red light district of Caracas and build a modern workers' housing project on the site.

Ersatz Rubber Shortage
When the four new defense plants for making artificial rubber are in production, some time in 1942, they will be able to turn out a total of only 60,000 tons of artificial rubber a year, or 10 per cent of the 600,000 tons of raw rubber now consumed in the U. S. annually.

Plants now in operation, making neoprene, butadiene and other synthetic rubbers, have a capacity of only 20,000 tons. The four new defense plants, Firestone and Goodyear at Akron, Goodrich at Louisville, and U. S. Rubber at Naugatuck, Conn., have a 10,000-ton annual capacity apiece. The 60,000-ton total emphasizes just how dependent the country will still be on raw rubber from Malaya and the Dutch East Indies.

The Small Business Unit of the Anti-Trust Division in the Department of Justice has been doing a little spade work on government purchasing agencies which have unconsciously or not been supporting monopolies, anti-trust's pet enemy.

What has happened is that specifications on some items have been so written that only one manufacturer has been able to supply the goods needed, and the smaller, independent producers have been frozen out of the bidding. Whenever one of these small independents yells, the Depart-

Checkups Make Sabotage Tough

Modern Sabotage Today Is a Skillful Art

By JACK STINNETT
WASHINGTON—Modern sabotage is an art. It is as highly developed as blackleg warfare and almost as important to it as the mechanical monsters of earth and sky.

It has come a long way from the original meaning of the word: the slow, clumsy production of crude work. A saboteur, in the first place, was a maker of those clodhopperish wooden shoes (from sabot, the French word for wooden shoes). Now it applies to all techniques of slowing or destroying an enemy nation's production; spilling volatile liquids which evaporate and leave a chemical that bursts into flame when it becomes dry; working with delayed action bombs and explosives that do their damage only after a machine is in use; and causing strikes and slowdowns behind a screen of apparently legitimate labor complaints.

Roughly, sabotage falls into four classifications: arson; the use of explosives; mechanical sabotage; and labor sabotage. The fourth is comparatively modern and ordinarily the saboteurs who work on the first three are entirely different from those who work in the field of labor.

There are sabotage rings in the world today just as there are spy rings and the two are related because the spy is the saboteur's consulting engineer. The spy gathers the necessary information on industrial plants and other spots where damage will hurt most. This, he turns over to saboteurs, frequently with instructions on how best to accomplish their aims. A foreign "industrialist" attending a "spy convention" in a European city some time ago boasted that he could produce a complete report on any factory in the United

ment of Justice boys move in and try to break out the monopoly, quickly. Items which have been worked on so far include everything from filing cabinets for the limitless government correspondence, to artificial teeth for the Army.

About-Facing the Figures
Whether it makes you feel any better or not, Vice President Wallace's recent piece on national income and national debt, written for Land Policy Review, one of the Department of Agriculture's numerous magazines, has presented some figures which will no doubt be used frequently as arguments justifying a still bigger national debt.

In brief, the Wallace theory is based on a comparison of private, state and federal debts, income and interest payments in the boom year of 1929 and the boom year of 1941. By the end of 1941, says Wallace, private long-term debts will be \$10 billion less than in 1929, private short-term debts \$13 billion less, state and local government debts \$3 billion more, and federal debts \$30 billion more. These add up to a net total indebtedness of "only" \$10 billion more than in 1929. But interest charges, because of lower interest rates, will be \$3 billion less in 1941 than in 1929, or \$6.3 billion in 1941 against \$9.5 billion in 1929.

Girl Scout Aim Explained Here

Miss Brooks, Regional Director, on Hope Visit

The importance of democratic training offered to women and girls in Girl Scouting becomes increasingly important and vital today in the light of national defense, according to Miss Mary Esther Brooks, of Memphis, who is in Hope.

"Girl Scouting has always striven for the development of good, democratic citizenship in youth. Through the Scouting program we are preparing in our young people with actual experience in democracy."

Miss Brooks is executive director of the Girl Scouts in this region, which includes the states of Alabama, Mississippi, Tennessee, Arkansas and Louisiana.

"Scouts are trained to work together in groups, but as individuals, not at mechanized units such as the totalitarian governments have developed with their youth. Under the guidance of trained troop leaders they make all the plans for their projects and recreation and carry them out on their own initiative."

"More than half a million Girl Scouts are already learning self-reliance, co-operation and patriotism through Scouting. We are making every effort," stressed Miss Brooks, "to increase this number and make Scout training available to even more girls."

Miss Brooks pointed out under the Girl Scouts new national program, "Training for Today's Needs," girls and women who are eager to aid in national defense have an excellent opportunity to prepare for active participation.

"Already many local groups have set up community service bureaus, through which welfare and civic groups can make their needs known and Girl Scouts can volunteer for practical service," Miss Brooks continued. "Special training courses for today's needs have been added in twenty-one training centers throughout the country. These courses are designed solely to teach women to lead girls."

"We believe," concluded Miss Brooks "that the Girl Scouts' new movement to aid in defense will prepare girls and women for a vital part in the nation's program."

George Washington was a stockholder of the historic Chesapeake and Ohio Canal.

Leads Australia

John Curtin, above, Australian Labor party leader, is forming new cabinet at Canberra, following resignation of Prime Minister Arthur Fadden.

of the Girl Scouts in this region, which includes the states of Alabama, Mississippi, Tennessee, Arkansas and Louisiana.

"Scouts are trained to work together in groups, but as individuals, not at mechanized units such as the totalitarian governments have developed with their youth. Under the guidance of trained troop leaders they make all the plans for their projects and recreation and carry them out on their own initiative."

"More than half a million Girl Scouts are already learning self-reliance, co-operation and patriotism through Scouting. We are making every effort," stressed Miss Brooks, "to increase this number and make Scout training available to even more girls."

Miss Brooks pointed out under the Girl Scouts new national program, "Training for Today's Needs," girls and women who are eager to aid in national defense have an excellent opportunity to prepare for active participation.

Chandler Purchases Mills Music Store

Mr. and Mrs. J. W. Chandler of Washington, D. C., have purchased the Mills Music Store on South Main street, it was announced Friday.

Mr. Chandler formerly played a French horn in the U. S. Navy Band in Washington.

The name of the store has been changed to Chandler's and features everything in music. The public is invited.

Mind Your Manners

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. Should a mother permit her young daughter to wear a long dress to a school party if the majority of the girls plan to wear long dresses?
2. Should a mother insist a daughter go to a dance if the girl knows she is a poor dancer and is sure to be a wall flower?
3. If a small child gives a birthday party should he receive his guests or be allowed to play with the first arrivals while his mother greets all his other guests for him?
4. Should a child be taught not to leave his playthings in neighbors' yards?
5. Should one make a habit of giving the neighbors' children a piece of candy or a cookie every time they come into one's house?

- Answers
1. Yes. Nothing makes a young person more ill-at-ease than the knowledge that he or she is dressed differently from the other young folks.
 2. No. If possible the mother should see that the daughter learns to dance either at home or by taking dancing lessons.
 3. He should receive his guests.
 4. Yes.
 5. No.

Across the continent from Newfoundland to Alaska the Canadian government is building an aerial military "highway," a chain of radio beacons 250 miles apart to guide bombers or fighters or interceptor planes crossing America in an emergency.

And notice is hereby given that said several tracts, lots or parts of lots, or so much thereof as may be necessary to pay the penalty and cost due thereon, will be sold by the county collector, at the courthouse in said county, on the second Monday in November, next, unless the said taxes, penalty and costs be paid before that time; and that the sale will be continued from day to day, until the said tracts, lots and parts of lots be sold.

NOTE:—Said tracts, lots and parts of lots will be sold to the highest bidder and if less than the whole of any tract lot or part of lot be purchased it will be surveyed in a square or legal subdivision commencing in the Northeast corner of said tract, lot or part of lot.

Dated this the 15 day of Oct. 1941.

FRANK J. HILL

County Clerk of Hempstead County, Arkansas.

(SEAL)
